C-Span Today,  
Attn: Jules Witcover,

How I wish we could impeach  
you from the news media, you  
are a total disgrace! Did you  
crawl out from under a rock?  
I never heard of you before and  
after to-day I hope I never hear,  
read or see of you again.

Have you ever heard of the re-  
mark "if you can't speak well  
of the dead, keep your mouth  
shut"? In all my years of  
watching T.V. I have never  
heard of such arrogance to-  
ward a great man, we loved  
him, and as you could see  
by the crowd many people  
loved Richard Nixon.

You jumped on the dead  
mans body, as soon as, you  
opened your mattress mouth.

I hope you think over what a complete ass you made of yourself. Where did you come from, did you have idiots for parents or did you just pick up your stupidity on your own? Do you always fight dead people? What a Coward! What a cry baby!

Do you know Nixon did not start the war, he inherited it. and he ended it. Get the facts straight. Get another job, something you know how to handle.

For years to come, as this day ~~and~~ is reshown on T.V., people will be cursing you and your heart filled with hatred. No wonder he never spoke to you over the years, how did he stand to be near you? To bad you are so very self centered. Tell me,

just why do you think, we  
care what your eight year  
daughter said? Do you think  
you could teach her to be a  
little more classy than you?

Let me say this - keep on  
envying the dead and you  
will get chased with the  
men with nets and land in  
the mental hospital.

Again I say, every word you  
say is the voice of ignorance.

YOU ARE ILL!

Get help!

A Great Admirer of  
President Nixon.....

Is nothing scared to you? You will  
go straight to hell for your rotten  
mouth.

Jules Witcover is not C. Spano's style of reporting.

Please Jules let Richard Nixon rest in peace, and you can drop dead, you're already dead from the neck up.. What a filthy mouth. No respect for the dead.

The photo of the year should be, the military man shown with a tear running down his cheek.

That was touching - very touching and a real man! I was very proud of all those handsome young men in uniform, was a picture to be proud of. & especially since we have a draft dodger as Commander in Chief.

Please never have Jules Witcover on your program again. I'd prefer Charly Manson.
