Mr Brain Lomb,

I'd sure would thank you if you would write me or tell me how on earth I can get a chance to talk some time when you are on. I called from the time you come on Saturday Night until you finished and I'd get ring, ring for a long time then finally it would start to sound busy and you would always have the next call in already. What is the catch? How do I get your program? I have the C Spun number 1-202-628-2525 that's what you show. Do these people call before your show starts? I'd sure like to know ever time you are on + I'm at home I watch + listen to you + the people. I live in Paducah, Ky. 42001 I have called several of the Senators in D.C. + I lived there for 6 years my Girls were both born in D.C. I have ask the cable channel but seems they can't help me.
