Capitol Hill  
Washington DC.

1-11-1990

Why does the American  
Government not clean up its  
own pigstake instead constantly  
interfering in other countries  
politics and problems. America  
is on the verge of becoming  
a third world country.  
In fact the poverty and  
exploitation in this country  
is worse than in the third  
world countries.  
Americans sleep on streets.

and in deplorable wholeness and  
when people go to Washington  
to demonstrate against social  
injustice they get arrested,  
Is this freedom and Democracy  
when people get arrested  
for demonstrating? At least the  
people in the Communist  
countries have the right to  
demonstrate and are even heard.  
Why should the American  
government help East Germany  
when all their citizens have  
a much better life than  
the majority of Americans  
have? They all have jobs  
Appartements, cars, 5 weeks

payed vacation, payed maternity  
leave for mothers, free education  
for the children. Much more  
than what the American government  
ever has offered its own citizens.

In fact it is a crime how  
the health system in America  
works and how doctors can  
earn millions on the misery  
of the sick.

It is also a crime how  
students are exploited with  
such high tuition that  
they are forced to take  
out student loans which  
keeps them in debt for  
years to come.  
Why does America give

generous full scholarship to  
rich foreign students and  
mistreats and exploits its own  
people? It is a crime  
what America does to its  
own people who have helped  
to build up this country.  
And now we have to watch  
how this country is deteriorating  
like this, thanks to an incompetent  
government, money greedy doctors  
and lawyers. We really hope  
that Spain will get on the  
air and waken people up.  
And have the courage to say the truth.  
Sincerely
