Dear Mr, Lamb,

Booknotes, congress, the court, journalists(term used loosley)
roundtableand interviews , C-SPAN drives on . And you sir and your
colleagues are the best. Is there any doubt now why congress
blustered about saving us money on cable charges. It's costing
us more and C-SPAN may be losing some air time. Those boys knew ^{+ 512LS}
just what they were doing.

Well, on to the point. The 1968 series was timely and revealing.
I was inducted on 15 Jan '68 and was in Basic Training when
the Cadre went ballistic over Tet. More training ,And attachment to
the Army Security Agency and eventual studies and observation group
in a sideshow called Cambodia.. Enough background.

Many interesting perceptions and perspectives on the YEAR, but,
the one that reached out and grabbed me was Donna Shalala.

Confirming that she spent most of her academic year,as most of them
did , "getting in and out of cars", "on the way to D.C. for one
protest march or another" ,and probably all the protocol that those of
us who spent time at universities know about,reinforces my notion
that all four year previous and subsequent sheepskin holdersof the
Year should turn them in and apologize to America for their treachery.
As upon my return from service the party atmosphere and free flow of
women ,money(oh how they hated it, but boy could they spend it)
and halucinagens captured me , I can attest to their culture. I sobered
up and flew in the RIGHT direction when I began to come in contact
with the hard core communist cadre manipulating these partying sheep.

Now they're in the White House, they control the media and i'm in exile. with most of the rest of the nation.

Shalala bemoans the lack of "big issues" for students to tear up the campuses over. Any sensible adult would demand our children devout themselves to academic or humanitarian disciplin, intellectual integrity and personal freedom.

Shalala hopes that her and her comrads ,some of who belonged to something called The Free Speech Movement, efforts to disarm the American people, squash free speech and dissent (Fairness Doctrine) intimidate religious believers, and generally dismantle any and all traditional culture, decimate and feminize our military, while moving out of our constitutional framework and into the more politically correct United Nations won't become "BIG ISSUES".

We'll see.

Regards,
