Washington, DC 20001

Dear Mr. Scully:

On behalf of the Greater Des Moines Partnership, we extend our deepest thanks and appreciation to you and Russell Logan for the tour of C-SPAN during our recent visit to Washington, D.C. Our group really enjoyed the behind the scenes look at the important services C-SPAN provides – a firsthand access to public policy forums.

This year's DC trip, consisting of a record setting delegation of 180 Central Iowa business, civic, and other community leaders, was a great success. The Partnership is the economic and community development organization serving Greater Des Moines, founded on the principle that one strong message and one strong voice will best achieve the goals of regional economic development and quality member service. The Partnership has 20 area chambers of commerce and economic/community development organizations as affiliates. We have created a true partnership among business, government, and the public in our pursuit of common economic and community betterment goals to make Greater Des Moines a better place to build a business and build a life.

Again, thank you for meeting with our group while in our nation's capital. Thank you for sharing your time and expertise with the group, and congratulations on C-SPAN's 25th Anniversary! As always, please feel free to contact us if we can be of assistance in any way.

Sincerely,

[Redacted signature block]
