Edison hg 08820-1054

Dear Brian Lamb.

This is a follow up letter to my telephone call to your office last Friday AM concerning the almost (in my opinion) wipe out of C-Span by The T&R Cable Co. in the Metuchen/Edison area of NJ and the Warren as well as the Aberdeen/Parlin areas of Central NJ.

They have Cable Channels they are not using at all, but have switched C-Span' to Channel 6 Mon. thru Friday only 1⁰⁰ AM to 4³⁰ PM with no weekend viewing at all!!!

I am one of those devoted idiot⁽²⁾
"Junkies" who had yet to reach
your Call in Programs but who
would not miss a single one
of your Book Reviews, followed by
Prime Minister's Question Time etc -
The wonderful Supreme Court and
Judicial system programs on
Saturdays and of course anything
you might choose to put on
between 4³⁰ PM and 1⁰⁰ AM Daily -
It is Criminal and we are
Helpless!! I've called Bob Mank's
Office - Bill Bradley's and
that of Lautenberg -; The State
Public Utilities Commission in Charge
of Cable is a total loss - at least
a person answers the phone there,

(3)

But the F.C.C. offices in N.Y. and Washington are answered only by Automatic programmed machines - It's impossible to get T.K.R. on the phone - Even for repair - since this change over the reception and color on most of the Cable Channels is atrocious and needless to say any thinking person is furious, almost but not quite speechless! I know you are not supposed to take sides but who can we reach what can we do? Help!!! This is worse than a Totalitarian State -

cc: Willie Verem Do Help Those of us who
Can't Help Ourselves - [redacted]
