

After my writing this short maxim for the year two thousand, and after your have read it, don't we suppose that it is about time we all realize how tiring and self-destructive this business of throwing stones at our President has become!!!

This is to state that there are citizens in our country who know and understand human nature for what it is. We also know that none of us is ever perfect...all of the time; maybe just some of the time.

Our supreme court was not perfect when it ruled that our President should stand for trial now in the alligations by Paula Jones. The court has set a precedent that will come back to haunt future Presidents, no matter what political party he or she may belong to.

It is high time for all responsible Americans to take a good look at ourselves, make our political assessments with a clear head, and then move on in the direction that best serves our nation.

Signed Sincerely,

AN AMERICAN MAXIM FOR THE YEAR 2000

If you're a Democrat, don't even dream of becoming the President, because [they] will kill you just like they did JFK... and daily try to destroy you like they did to Bill Clinton.
