C-Span should be congratulated for bringing the 2-day economic conference to the viewers. It was fascinating and showed that Mr. Clinton has a tremendous grasp of economics and he and Mr. Gore did a superb job of eliciting various points of view. I watched the entire two days. One small annoyance--why did your commentator show only the negative newspaper headlines? What about the N.Y. Times or most other papers which were affirmative. The Washington Times, as he well knows, is a rabid fanatically rightwing paper run by the Rev. Moon.

Sincerely,
