Brian Lamb.

Watch your programs all the time, and would like to say I try on it so much. Can't get through by phone, so decided, to write in. I am, a widow 68 in W.V., like all others trying to survive. Its bad here. (Poverty, plenty of it. (No jobs high taxes. We pay 60% tax on every thing. Things are always bad under the Republican Administrations. All our glass factories, Coal mines have closed here. & there's no jobs to find. The Republicans get on CSPAN & say more people were out of work under the Democrats. (That's a lie & the American people know this). There was always work when Democrats were in office. I hope the American people, have

had enough of the Republicans.
All these Scandals is Certainly
a disgrace. This Country is ~~bad~~
now & if the Republicans get
elected again, this Country is done
for. As far as I can remember,
Hoover, Nixon, Ike, Ronald Reagan
George Bush are five of the
worst presidents we've ever
had. Hoover the Depression,
Nixon Water Gate, now this Contra
Iran Scandle. It's a depression
now only the Republicans like
to make it sound better by calling
it a Recession. George Bush I
said he wouldn't raise taxes
& he's taking the Americans to
death. (The Bailing out of son
involved with this S & L scandal.
Holding those poor hostages till
after the Election, all the innocent
lives that were lost (It's a disgrace.

After all the dirt that has been done, George Bush wants to Clarence Thomas, Robert Gates confirmed. George Bush is in with the CIA. And this is all to cover up. We Americans aren't dumb. Neither are Democrats. The Republicans say we have no good reliable people to run on the Democrat ticket, that's a lie, at least they'd be honest. These hearings are costing tax payers dollars & it's all for what? Just to be swept under the rug. If all these accusations are true of what's been happening & just now coming to surfac. Each one should be prosecuted. This Persian Gulf War was a scam. Called for, what was accomplished only innocent lives lost. Tore those countries up, now we're paying

for it. They say George Bush is high on the Voting poll. I don't believe this at all. How could he be? They blame Congress for this unemployment benefit not being passed & the reason for this is the Democrats want to extend the benefits to 20 months. Bush vetoed it he wants it to only go 10 weeks. What then, after they run out? No jobs. There digging into S.S. funds to pay all these debts, the Republicans has gotten us into, \$1000 Annies, sending all this money over seas. People paid into S.S. that's not George Bushes money its the American workers. Boy I'd like this letter read on the Air please. If the Democrats get elected it will take Years to straighten out

5-

the mess the Republicans got us into. I hear lots of Republicans on C Sp or saying they're turning Democrat. I feel with with all Sincerety that George Bush wants Gates & Clarence Thomas confirmed because his afraid afraid they'll tell some things of his & Ronald Regans Immoral acts while they've been in office & the White House. What other reason would George Bush have for these actions, I hope & pray the American people wake up to what's been going on in this Country & overseas. The C I A. Irish Cover up. The St L Scandal. I'll add a little more on Page 6
A West Virginian.

Why would George Bush want
Bates & Thomas confirmed after
all the scandals that have been
brought up in these hearings?
Oliver North got off scott free,
& I think as others do (its awful).
I don't think Bush is as popular
as the Republicans would like
Americans to believe. He can
be so hateful & stubborn, I've
heard people on the panel
ask him questions & it is
something he don't wish to
answer. he says he don't want
to disguise it. He isn't concerned
what goes on in this country
its all foreign policies.
Thank You.
