I have been a fan of yours and C-Span for a couple of years and have noticed a trend I feel that has developed.

This morning show was a repeat of most of the shows of recent month.

Domination by the "Conservative" press is firing. Almost all of the guests are "Beltway Conservatives" or leaning that way. I say "Conservative" because the vast majority are "Beltway" reporters whose salary ranges are in the 6 and 7 figure category. This disqualifies them, in my opinion, from being objective when reporting foreign and domestic issues.

Surely its obvious they are out of touch with the majority of the callers, who mostly criticize George Bush and his policies. They are constantly defending the administration and "Poo Poo" 75 percent of the critical remarks or just don't answer the question.

This mornings first four guests were more of the same. The media is just not going to give serious coverage to domestic concerns or foreign policy "Blunders" nearly as much as they like to heap praise on George Bush's "limited" foreign policy.

"successes."

It all boils down to money. Almost all of the press representatives are part of the Washington establishment desperately playing up to the "White House Line", because their careers and income depend ~~entirely~~ on it.

Our media and administration was caught absolutely flat footed when the Soviet People overthrew their oppressors.

So ~~surprized~~ the press and the White House wouldn't recognize Yeltsin and the reformers until the rest of the world already had. Am I Wrong!!

George Bush stuck with Gorbachev and the status quo until the bitter end, and just this weekend they confirmed through spokesman Bierbaum of CNN and their expert Jerry Hough that the White House considers Yeltsin quote "dangerous and another possible "Hitler". Brim that's heavy stuff.

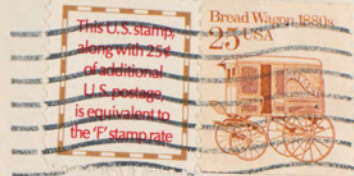

So the media can ignore 250,000 Americans demonstrating on Labor Day but that won't make them go away.

One day some other brave "separatists" may stand on an M-1 Tank in our nation's Capital.

Good Luck
