After hearing the testimony of Mr. Kenneth Starr, I now know without a doubt that Mr. Hyde showed his true dark heart and that he and all his cronies have ruined my faith in Congress -

I will never believe in the justice system again, after seeing such a list group of unfair testimony. This is obviously a disgraceful performance, set and staged by the Republicans who are blind to us;

Therefore I am going to send a video of how I see our government, and I pray that in the year 2000, those who believe in the Republicans, see the real truth and change their votes to Democrat.

We the people shouldn't vote for those who ignore us just because they disagree with our opinions - It is not enough to disagree

O. hrg, impeach

After hearing the testimony of Mr. Kenneth Starr, I now know without a doubt that Mr. Hyde showed his true dark heart and that he and all his cronies have ruined my faith in Congress -

I will never believe in the justice system again, after seeing such a blatant group of unfair testimony. This is obviously a disgraceful performance, set and staged by the Republicans who are blind to 'us';

Therefore I am going to send a video of how I see our government, and I pray that in the year 2000, those who believe in the Republicans, see the real truth and change their votes to Democrat.

We the people shouldn't vote for those who ignore us just because they disagree with our opinions - It is not enough to disagree

without first giving a very very good explanation to its people before you act against them.

Fairness and compassion must be used always no matter what ones emotions or beliefs may be.

This imparative act of fairness will stop the acts of prejudice and bias from creeping into areas of the law; Then and only then will justice be properly executed, and the law properly preserved.

This Starr, is a brist two legged snake, who is a very elusive character indeed -

He is too well rehearsed with the information given to him, but he's still a boring, overly talkative rat.

And as for this man who is most often seen smiling is addressed with two titles one is Independent and the other is Judge Starr, which is too egotistical and that the end doesn't justify the means. Sincerely,

P.S. Starr spelled backwards is Rrats, now isn't that something?
