Washington Journal - C-span,

Thank you for showing what a ⁷⁻¹⁸⁻⁹⁹ gun show at an arena is really like.

Finally, some up front reporting that's not bent by the anti gunners to make gun owners such as myself look like a thug.

Golfers hit a ball 200+ yards with the hope of getting the ball in the hole - fat chance but that's what's on their mind. I try to get my ball of lead into a bullseye at similiar ranges.

It was great to have it all explained, the paperwork, the law, values of various arms and of course the universal agreement amongst gun -

- dealers and members of shooting organizations such as myself (NRA) that if you do the crime (selling guns illegally) you do the time.

It's unfortunate turnstile justice has produced an artificial hysteria that we are doomed and of course controlling all firearms will take care of everything.

I wonder if the residents of Kosovo would have fared better if they had a second amendment.

Thank you for an honest show.
