Cary, N. C. 27512

Dear Mr. Sutherland:

Reference is made to our phone conversation on Monday, the 17th, when I enquired as to why we do not get C-SPAN2 in Apex. I mentioned that I was able to receive both C-SPAN and C-SPAN2 in Greensboro and I understand it is available in Raleigh itself--just a few miles from Apex.

You were very kind in listening to me and told me that your Cable Company is planning to acquire the additional capacity necessary to place Apex into the viewing spectrum for C-SPAN2 but that it could be a year before this is completed. I understand there are financial constraints on any business entity and I am sure it will be expensive to bring this about. I appreciate the problem for your company, but I am sure you will be more than repaid and will acquire many additional customers. I am pleased this expansion is being planned and I look forward to being able to get both C-SPAN and C-SPAN2.

I have learned so much through C-SPAN. I watched the WACO HEARINGS; RUBY RIDGE HEARINGS; the WHITEWATER HEARINGS, the CIA HEARINGS, the BANKING COMMISSION HEARINGS; the BUDGET HEARINGS--all expanding my own knowledge of the events that have taken place. The Cable Companies are doing a wonderful job in giving this to the American people. We would not know the truth otherwise. On C-SPAN we get the actual facts--not media soundbites interpreted for us by the Anchors. I love to listen to the Callers. Obviously, the people are not stupid. C-SPAN has respected the people enough to give us the facts--believing we have the intelligence to discern the truth. C-SPAN will help us take back our country for the good of all the people. It is a matter of education.

Soon the hearings on the misuse and improper financial contributions in the 1996 Presidential Election are scheduled to start. Even though we won't have C-SPAN2 for awhile will it be possible to give us some of these hearings on C-SPAN? I do hope so.

The people in power have abused our country for decades. In doing so they have abused the trust of the people. We do not have to respect corrupt leaders. We all want good leaders. I think they are getting the message.

I look forward to the de Toqueville Forum. One of his great observations was: "America is great because America is good. If America ever ceases to be good, America will cease to be great." We are getting to that point--as the events of these past years indicate.

J. Cable

I came to America fifty years ago. It is not the same country today. Ask any native born American over 60-65 and they will agree. We were a different people then. The great thing was the Civil Rights Movement which grew out of the hearts of good Americans--all races and creeds. Senator Dole was not trying to keep us rivited in the past, he was trying to bring the solid goodness of the past into our future. What he intended was twisted by both the media and the current Incumbent. The greatness of a people is in the hearts and values of a people -- not in money and power. Everyone needs money to live. We don't have to sell our souls and our country for it.

I have learned to respect and trust Brian Lamb. He is a true patroit. He is fighting for America the best way he knows how--giving the people the Truth. That takes courage. The people love him.

I, too, thank the Cable Companies for C-SPAN. You are all doing great work for our country. You are not selling our country down the river for gain. You can hold your heads high. Don't let the power brokers buy you-- as they have just about bought up the world.

We keep our sovereignty. We take back our country. God bless you all.

Sincerely,

A black rectangular redaction box covering the signature of the sender.
