

J. Peter Grace on C-Span - Great!

Guns! As often as I've watched C-Span I have yet to see any debate about illegal alien immigration, All the Freebies including FREE health, medical hospitalization, FREE loading on Social Security into which they annestied aliens - (Trice not just once as promised - gov't promises are hot Air!) Overloading of educational systems - Special interest backing illegal immigration - enormous COSTS to taxpayers - grave detrimental effects in crime, increased drug traffic, diseases - Right of Americans to English our official language & why US Congress so pro alien & anti American - (Another big Voting Bloc?) Sincerely,

Why aren't the over

prisons deported?
