Gentlemen:

I reside in Jupiter, Florida for six months of the year and Oak Harbor, Ohio the other six months. When in Florida 60% of my T.V. watching time is tuned to either C-Span 1 or two. My reason for writing, I can not convince Front Row Cable in Oak Harbor, Ohio that they should carry C-Span 1 and 2. They say "not enough interest". The population of Oak Harbor is 3,000 and it is a small farming town. I know if once people would get a chance to see C-Span, they would totally love and enjoy it as I do.

Please advise me what I can do to get C-Span to Oak Harbor, Ohio. I feel my grand children are being deprived of a great educational tool if C-Span cannot be made available to them. Thank you.

Sincerely,
