

Norfolk, NE 68701

Dear Friends at C-Span!

Congratulations on your golden Ace Award! You deserve it and the C-Span Bus is spreading your excellence. I loved the picture of the bus by the ship named Excellence.

How about these elections Nov. 8! One morning Bryan wondered what happened in Nebraska. I worked very hard to get Jan Stoney elected in place of Bob Kerrey. But as you well know Bob had Billionaire Buffet behind him and outspent Jan 4 to 1.

I called a lot of registered voters to encourage them to come out. It was interesting some of the comments I encountered as I made contacts.

[redacted] and I'm proud to say I was responsible for getting a newcomer to our community signed up to vote and even convinced her to work making calls to ^{registered} voters. I wrote a letter of support for Jan to the editor Challenging the women in Nebraska to put in a woman senator to help out Nancy Kassenbaum, & Kay B. Hutchinson. I told

them we needed more conservative women in politics.

I was delighted to hear about Brian Lockman going into P.A. to set up a mini C-Span. I would be really interested in getting a similar set up in Nebraska. We really need to reveal more of Gov. Nelson because he is getting by too easily in his governorship of Nebraska. I worked hard for Alan Jacobson of Lincoln but we had a 3-way split which allowed a weak candidate to receive the Rep. nomination. We have the unusual unicameral in our state so it makes it more affordable in theory but more effective, perhaps questionable.

I'd like to launch a Circle Tour of Nebraska & had hoped for a better political climate after Nov 8th. But with the Republican Congress it should help. I'm torn between doing this or working with the Republicans to get a Republican President. It's hard to decide where to put your time & effort.

I can't wait for January to arrive & see the Republicans seated in the speaker's chair. It will be so delightful.

Enclosed find \$15.95 + p+h. to receive your updated guide to the Congress.

I loved the American Revolution show based on the Potomac Channel. After that you understand why Washington filled our heads at the time. I think you'll get a slot on that Channel for sure. I met the lady in charge of that Channel in Omaha in October. She was most interesting.

Best wishes for 95.
