

To Whom it may concern,

002594 APR 7 93

It would be a great service of your station  
C Span & C Span 2 to have a commentator explaining  
what was going on in Congress or the Senate as we  
are watching. For instance voting on culture  
I tried looking up the word culture in my  
Websters dictionary & its not there. Am sure  
there are many people, like myself, watching who  
really dont know what is going on. Many of  
us viewers have a real thirst for this knowledge  
and are now picking ourselves for not paying  
more attention in our high school Government  
class. Even if you were to have Print running  
across the bottom of the screen it would be a  
great help. If this request wouldnt be possible  
Please write to me or call & explain to me why.

Thank you very much
