

Feb. 14th. 1992

Dear C Span,

I don't know how we ever got the News before C Span - you have come through again for those of us who want to know the People who run our Federal Government. Thanks so much for all the information we are getting on all the Presidential Candidates - especially those who call themselves Democrats - I wish you had given us this much information on Ronald Reagan and George Bush before they got us into the biggest Borrow and Spend in the History of Our Country. I hope you continue to keep us informed - maybe some day we will get an Honest Government and "We The People" can Trust Our Government again. I wonder if you have ever taken a survey of which Administration since the beginning of Our Constitutional Government has had more Corruption - Scandals - Indictments etc.

I have only had Cable TV (C Span - CNN - Headline News for 3 years - before that the Network News gave us 1/2 hr News and after Cable they increased it to 1 hr. - But without C Span I would not have seen and heard Desert Storm

through the Eyes and Ears of Peter Arnett,
Bernard Shaw and John Holman from Bagdad.
Our President and Our Pentagon did not want
us to know anything about Desert Storm except
what they doled out to the Press through
Pentagon Liaison - Thank you C Span - Thank you
Peter Arnett. Thank you Bernard Shaw and thank
you John Holman.

I know I am not alone in my Praise
for C Span - from the beginning of my Day -
5 AM to the end of my Day - 10 PM I have
C Span on and can watch it from my living
Room or Kitchen - I especially like your Journalists
Round Table and Call in Shows - I find out a lot
of People think like I do. The better we know
who we elect to Public Office the better chance
we will finally get a clean, Honest, Corrupt free
Government That Works For The People In
Order To Form a more Perfect Union

Thanks C Span - Don't Change - We
need the Information that The Network cover
up - How would we even have known about
"October Surprise" -

Sincerely,
[Redacted]
