

Why I write C Span

I'm writing C Span to express my appreciation for its' marvelous work in our society;

It's the greatest thing in Television since the first object appeared on the tube. It's bringing into our homes things that have been concealed to the majority of people since the nation was founded.

We have always known we had two parties and one government. We was taught it was of the people - by the people and for the people. Seems this portion of the people has rode into the sunset and parties are doing their thing. Through C Span we are seeing works of the real McCoy's performed before our eyes.

Example: Eighty percent of the people wanted a Bill past. It came before the House and was defeated, no one has to wonder who the Big Guys are representing. I thank you C Span for educating us on the men we voted for. It's like the old hymn: "It's so different now."

To the senate and representatives holding office, through C Span we see you, hear you as you speak and debate. We also hear you pass the Buck and dish out your slander, which is permitted under our system of Government. Living in glass houses are dangerous, when stones goes to flying.

In 1971 I was in Florida during the "Red Tide" - which is the Cleansing of the Ocean. It was a sight to behold and the odor terrible. When it ceased the Ocean was clean. C Span we can't believe what you're showing us. Through you this Nation will be cleansed and you will be the winner when the job is done.

Then we'll have no problems getting voters to vote,
The young people will practice clean living &
make better leaders and a lot of new faces will be
in Congress.

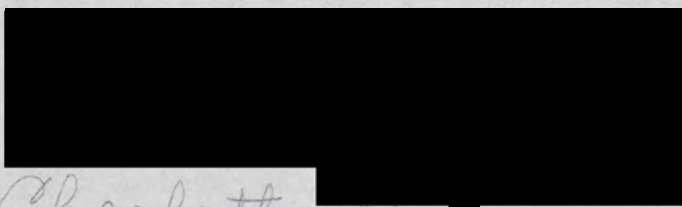

Through C span the depressed and Senior Citizens
are watching and finding relief from Boredoms
that will take a lot of expense off from medicare.
They are meeting in groups and are having a
ball.

Thank you C span for your questions and
answer time. It's so exciting — like putting the
icing on the cake or tip toeing through the tulips.

I've seen some of the wonders of the world including
the pyramids at my own expense. The wonder of wonders
is C span and it's free.

Examples: The Chief Mondale is wanting to find is
C span.

The New Frontiers Gary Hart is dreaming of is C span
It's priceless and unbelievable. It's the only channel
I watch as C span has it all and no man could
ever be able to define it. Why? Well, it's like the old
Negro Spiritual; "It must have been the Hand of the Lord."
