Praise
Call-in

Dear Sir:

I very much enjoy your networks and in particular the Talk/Call in shows weekday mornings at 8:00AM - Eastern time. I think it is amazing you find it possible to have so much balance in your guests. I am a retired 73yr old male who is conservative but moderately, but I enjoy listening to commentators from all sides (I even enjoy Frankon Cliff). Some shows are less enjoyable because the guests are not as knowledgeable about the subjects as I would like but generally they are great.

Now for my complaint - Sunday 9/25/94 the "Sunday Journal" was ruined by David Wilhelm. He and Ashley Barber have little to say on any program other than their canned political speeches we have heard too many times but this Sunday he

was particularly obnoxious in that he refused to let your other guest discuss things we could have found interesting. I hope we do not have the pleasure of listening to the party chairmen on your stations through the election cycle.

Again I would like to state how much I enjoy and learn from your stations and hope you continue having both sides, even the extremes, presented.

Thank you.
