Dear Mr. Lamb,

Our school recently participated in a televised teleconference on the issue of national health insurance put on by the Close-Up Foundation. We understand that C-SPAN is a major supporter of the Close-Up Foundation.

Your support of Close-Up and its programs deserves our thanks and recognition. These programs provide opportunities for our students to interact with their peers around the world on issues of common concern. This is a powerful motivator for young Americans to engage themselves in the issues of our time. More importantly, we continue to reap the benefits of their involvement when they become adults.

Thank you for your support of Close-Up's programs.

Sincerely,
