Attention Brian Lamb:

The reasons I believe that, that you should call me by phone for an inter view on my books:

1. For her review of my book, "The Tools of Learning" by Vonnice Rosendahl. She priases and then uses the book in her college library. (These people who you listen to have demoted her.
2. Because I have spent \$150,000.00. For all of my books and they are in press and bindery are superior to other.
3. Opportunity for eight years --one of the editors Bruce Bledsoe adopted me for relief duties for supplying articles or opinions for use in the Gazette Journal. I wrote an article every four weeks or quarter of a year. They published these letters.
4. I also write in the textbook style so textbooks can be used in the University Libraries.

I also do not write in the specific view-point such as individual studies. I only from the universal or religiosity viewing.

From my book "The T/ools of Learning"

I was fired for not being specific.

Also spent all my time building up a
3,000 dictionary of life words (just)
3,000 concerning life.

This about a change in the use of. Every day new words are added to student's vocabularies.

5. Charlton Heston the actor, has backed my idea of researching the use of using a 100 authors rather than /just one.
6. For the sakw of /Unity and Unification.
7. Now

7. I believe I have proven myself in handling people. For 25 years I was the President and Tournament Director of the Reno Chess Club. On August 17th we are having just a small tournament being run by Duane Catania.

It would be nice if you could attend this tournament and see my Home where I intend to make it a Museum piece.

You also could see Larry Evans a ^Ocolumnist for the National Chess Review and a former chess-Master or Grand Master.

For myself I directed at one time. You can term it a success. I handled both the administration duties--record keeping and sales promotion/

And I did write a book titled. "Is Anbody For Chess". It has been termed a "CLASSIC"

8. At the Beginning of my Life I dealt with Farmers. At the later date I associated with tennis and chess players.
9. At about 1968 I wrote and made a survey--an Administrative Survey of much of the Nevada State Agencies.

This Survey was called to libraries and State Agencies through out the country. This Survey appealed to me.

This also the government setup or framework and are being used. What is now being used. One of the other writers has stated. You can see that I did appeal to many people.

(This is called "The Little Hoover" Report.)

10. Some of the people now who exert power were asked by Cory Farley as to who they show no desire to patch up. They don't answer. One of the other writers has stated to me that he is a neophyte in comparison to me.
11. You take Cory Farley who writes 2 articles about me. He states--brandishing a folder labeled Congratulations and COMMENTS. He mentions 15 booklets sent to Evangelists.
- (Contacted Evangelists all my life. Helped them form their decisions. Started writing 50 years ago.
- (Being married for 60 years for sixty shows stability.

12. When you allow everybody to have his own opinion, you are going to have his own opinion, you are going to have violence.

Let us just take an example the cost of T.V. T/rips. At phone companies, they said couldnt help So I went out to the Nevada Bell Building space to have them find the answer. They called the three main channels. They said they had no trip for this/dat e.

We were Actually going to be paying the bill The Channels 2, 4, 8 said they had no work going on at that /time, so I had to leave.

I am an outcast in my own city or town.
