I watch C-Span because it is the only unbiased media of Washington's functions. It presents the opportune experience of visualizing events that in no other way could the average citizen, as myself, benefit by in a lifetime. C-Span offers the opportunity for whetting the interest and involvement of the public in our government which is sadly lacking in the masses; as was to myself, to a large degree, until C-Span "happened." The mystical shroud about Washington
(over)

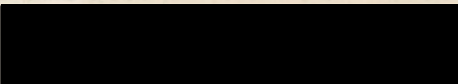

unwraps more and more, much
thanks to cable T.V. and especially
to C-Span. How wonderful it
would have been if, ^{such} citizen partici-
pation programs were available
in my youth! I am "middle-
aged" and learning more than
I could have imagined, at my age, by
viewing C-Span. It is truly
"The American Network"! When
I first became a cable subscriber,
I became quite, ^{happily} excited about C-Span
and wrote to tell you so. It is
my pleasure to Congratulate you
again. My appreciation of your wonderful
staff is daily.

Sincerely,
