FEB 01 ANS'D JAN 12 REC'D

Dear C Span,

I recently was given Cable TV for an early Christmas present by my Son. I have to keep up with the News and had become discouraged with the watered down or censored on the three networks, I am a new fan of C Span - I like the debates and call ins.

I would like - in this election year - a debate between Congressmen who have knowledge of the no New Tax President (read my lips) and what he is doing to the Social Security Surplus Fund - using it to pay off the Federal Deficit and giving back to Social Security D O U's - not what some Commentators are trying to make us believe we are getting U S Treasury Bonds in place of the money borrowed - Senator McCain says this is thievery - Government is not borrowing with intentions of paying back - what are the views of this debate of Senator McCain's cut in Social Security Tax <sup>from Payroll</sup> - cause the 1990 Social Security Tax that was raised in Payroll tax will not go to Elderly Social Security Fund - but into the U S Treasury - also no New Tax President who is raising F D C tax and other old tax he is raising

The working poor and middle income workers are paying more and more increases in old tax. Isn't this dishonest? To those who are paying these increases in old taxes are too timid of criticizing these schemes of increasing revenue and still bragging about no new taxes - its still costing the less advantaged - while Bush is demanding and will get a big cut in Capital Gains Tax for the Rich - they didn't invest in America and make new jobs before when Capital Gains Tax was cut - Do they think we are stupid - no not stupid - just to timid of write in a big fight to stop it.

Please if you have this debated on how this Read My Lips President is getting his New Revenues - Off The Backs of the Elderly's Social Security Tax and other Pay Roll Taxes - maybe some one will be watching and join me in writing to Congress. Thank you C Span for the Knowledge I am learning from watching you

Sincerely,

Lulaty, mo
