

Producers C Span One and two

You believe these folks who get to connect with C-Span lines - I believe that your calls are screened - there are too many conservatives and hardliners who get thru. The big reason why I believe this are

(1) you have a preponderance of "Rednecks" and Republicans scheduled on your programs - not only journalists, reporters, editors, etc but profiles, meetings, the broadcasts.

Numbers of my associates have monitored C Span 1 and 2

It's okay for you to do so but when you pose as a media who is fair and even handed

if not objective.

At any time after the Congress closes down, you can bet there are re-runs of rightists, demagogues, bigots or anyone who is negative toward groups, the government, Congress, officials, etc.

Brian Lamb tries to be so neutral - He is worst than those who speak out. She constantly shows these negative headlines, magazine articles, columns, ^{Cartoons} that are blatantly anti-administration - Here if you also highlight positives, why cut short the positive sellers, sometime giving no responses but listening to comments forever that are bigoted - Just be fair - Lamb is a cunning A-- h--.
