

Dear Brian

Warren, OH 44481-9628

On Fri. (2/10) you seemed perplexed as to why Conservatives wanted to complain about liberal bias in the media instead of discussing the issues.

Evidently you are unaware of the unexpected onslaught of liberal lies that we in "fly over country" are receiving ~~DAILY~~ ~~Hourly~~ concerning school lunches & S.S.

Headlines & editorials in 1000's of local papers are screaming wildly of starving babies, children, mothers & seniors. All this will happen because of the mean spirited Republicans.

90% of what is printed is out & out lies & the other 10% is insinuated lies.

We are sick of it! The incessant lying attacks of the "foaming at the mouth" liberals in Congress is aided & abetted by the liberal media; and for anyone to say reporters are not liberally biased (as your one guest did) is absolutely to be unaware of the real world!

Our great country is on its way down the tubes!
(Not there yet, but on its way.)

Now we have the opportunity to begin to turn it around. And what happens?!? The whining liberals attack the only ones with guts enough to try and save our economy.

We don't have the money for all these socialistic programs any more. The truth is: We never had it. The Dems have appropriated our grandchildren's future - like it was their right to do so. Unfortunately, some Republicans (like Mark Hatfield) went along with the program to undermine our national future.

We are totally frustrated the liberals' inability to recognize the problem. Maybe because they are the problem.

Believe me - Conservatives love C-span. If it weren't for you, we out here - who spend most of our time working (which translates: paying taxes!) and raising families in a law abiding manner - would still be in the dark about what those liberal rascals are doing to us.
