In your interview with
Hillary Clinton, you
failed to correct her
mistake when she
stated that Henry Ford
paid his workers
\$5.00 "per hour" - it was
in fact "per day"

Too many of our
younger & ill-informed
generation, this mis-
information is important.
When I started work in
1938 (I think), the minimum
wage was \$11.00/week, &
that is what I was paid!
