A 1

"I watch C-SPAN Public Affairs Network because the C-SPAN Channel is now the most important station on my cable.

In New Jersey, where I reside, the extra sports available on cable was my first interest at the time. Now C-SPAN is my main interest and my only concern is that something may cause C-SPAN to leave the air or I might lose it on my particular cable.

I would like to compliment all the employees on C-SPAN for their professionalism and expertise.

The information and interviews are served to the public in the most informative and unbiased manner.

This praise is justified and sincere. I notice most of the public calling C-SPAN express the same favorable appreciation.

Thank you C-SPAN and keep the fine programs coming. The complete spectacle of a United States Presidential Election lies before us and with C-SPAN to cover it, I can not wait."
