

SEP 24 ANSD

Dear C Span,

Since I watch only C Span, CNN and Headline News (I switch around - when C Span is carrying a repeat I turn to one or the other Channel. What I am writing you for, I am assuming the other Networks are also doing what you are doing - Writing off this coming election to the Democrats - I hear this every Day from all your Guests - and at the end of your show I find most of those Guests are Conservative and follow George Bush so closely they can almost smell his Read my Lips - When they are on your show they can say nothing negative about Bush - I can still hear him saying in his Campaign and still did until The Budget Summit of 1990 Read my Lips No New Taxes - when in fact he raises the Social Security Taxes every year and I cannot understand why it is called Social Security it don't go into the so called Social Security Trust Fund - it goes to pay Government Bills - But your Guests never mention the Rip off of all the Trust Funds. Neither do you recall other lies - like the Cocaine the President brought across the St from the White House when in fact they had to run all over Washington DC to find a drug dealer to come to the point where they could say they purchased the Cocaine - Your Guests can

find nothing good to say about the Democrats - no
CSPAN - CNN and Headline News have already
Won the 1992 Presidential Election for George Bush -
Even on CSPAN when a caller differs with you
on King George (who uses the White House to change clothes
or entertain a Foreign Dignitary and the rest of the time in
Air Force One) you or your guests make very few
comments on what the caller says - I always thought
Our Constitution was [In order to form a more Perfect
Union, establish Justice (like Ed Meese standing guard while
"Ollie" North - Hawn Hall and Poindection shuffled all
evidence on Iran - Contra and "October" Surprise - And his
successor "Classified" all evidence so that the Prosecutor in
the Iran Contra had no evidence to make a case stick - also
how the Murder in the Martinsburg Sheraton - where Danny
Casolaro was found dead in his bathtub with 12 slashes
on his arms - but this was called a Suicide - I would like to
know why his family were not notified until they had already
embalmed his body and called in a "Cleaning Contractor" to
Sanitize the Motel Room - I haven't heard any of your
Guests discuss this - or any of your guests discuss The
Anti Abortionists blocking Doors to Womens Clinics in
Wichita, Kans and costing that City Millions of dollars and
man hours - or of this group who used Children to break
the law by defying the Judge - It seems to me The main
Bush and Thornburgh Justice is to concentrate on Street Crime
and doing nothing about crimes allowed in Our Government

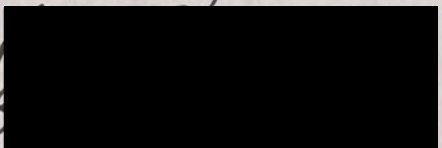

and our Constitution also states In Order to form a more Perfect Union (continuing) - Insure Domestic (not Foreign) Tranquility, Provide for the Common Defence (not Ruin) Promote the General Welfare - So why, C Span do you endorse George Bush - or Ronald Reagan - when it seems to me they have used Foreign Policy as Paternalism - always having an Evil Empire to promote involvement in Foreign Countries and using our American Six Dollars to scare Congress and the American People. The Russians are Coming The Russians are Coming - Do you remember what happened to the little Boy who cried Wolf too many times? - I want the Candidate I vote for President and Congress to Defend and Protect and Honor Our Constitutional Law and Our Bill of Rights and make his home in the White House instead of Air Force One - If you are in the Air all the time - naturally you don't see the Homeless sleeping on the Streets - or the sick or injured turned away from Hospital cause they don't have Health Insurance - or visit Unemployment lines - or soup lines - Bush's thousands of points of light are not working - they need dollars for what Bush mandated them to do.

Well C Span I watch you every day cause I want to know all about my Government and your channel as well as CNN and Headline News are the only channels that carry News all Day - The only thing it is only the Republicans who are covered extensively. You are contributors

to a one Political Party Government and give more Power to the Executive Branch who for 10 years have Specialized in Foreign Policy - George Bush doesn't think of himself as an American President - he is Commander in Chief and Global Police Chief and he uses the UN as a Part of his New World Order and Congress and the Courts and the American People as his Subjects.

Well - even though I don't like what I hear and see - I am probably the most Informed on World Government than any other Missionary The Home State of Give 'em Hell Harry Truman -

Sincerely

Liberty, ms 64068
