CSPAN -

Greetings. Thank you for existing. ~~And~~ too bad you can't go into the backdoor meetings so people could really see the waste & thievery of the U.S. govt.

Thank you, too, for covering the Lesbian & Gay March on Wash DC. It was so important for people to see. And thank your camera operators for not focusing only on the most outrageous ppl there - like the typical media would. I love everyone at the march - but you gave a good overall view -

Could you please try to give some coverage to people discussing public access television. We need to keep it and expand it. People need to know what it is -

and ~~then~~ that they have a
right to public ~~as~~ access to
before it's too late + it's
~~gone~~ - gone -

Thanks -

Also please cover any goings
on regarding Rep. Don Edwards
(D-Calif) questioning of the
role of the FBI + the A.D.L.
in recent domestic spying
charges.

Thanks again -
