C-SPAN
400 N. Capitol NW
Washington DC, 20001

Dear Brian Lamb:

This is a protest letter, it is to notify you that T.C.I. of Southern Washington has removed C-SPAN II from its program schedule. This was done with little notice in an arbitrary manner. There was no time for customers to protest. However, we did, and we are. Many of us contacted our local City/County T.V. Commission.

We are captive to this cable company. Our alternative is to purchase a satellite system.

It must have been in place because as soon as the federal government passed deregulation, it was a done deal.

p2:

I have contacted our Wash. Senators. And, was informed ~~that~~ through their local spokespersons that they thought both Senators were to meet with T.C.I. and/or our commission. Perhaps both.

I appreciate the work you have done to bring our government to us via video. We do not want to lose it. (We do not like losing it.)

If there is more I should or could be doing, please advise:
