Dear Mr. Sully-

When 'Margaret Carlson was on Journalist's round table and the next to the last caller said 'Haiti' was a case for the Second Amendment she deftly avoided answering the questions she mentioned that we have the bill of rights and something or other. The caller meant: does 'Haiti' have any provision in their Constitution for the right to keep and bear arms? Barbara Reynolds said Aristide couldn't fight the government of Haiti because the people don't have any arms! But both she and Carlson constantly attack the NRA as does Time and USA today on the issue of the Second Amendment. A lot of these Senators and Congressmen and other government officials should be impeached on second Amendment rights. Senator Biden wants to lift the arms embargo on Bosnia - What a hypocrite! when we disarm us!

The issue of the Second Amendment of these Senators and Congress government officials show the second Amendment means to left the arms embargo on Gore - What a hypocrite! when he wants to disarm us!
