

Dear Brian, I've been enjoying the 9/11/99
President's Series but:

I am amazed with "your American Flag
with President's Signatures". This is purely
flag desecration and you should know better!

Early in this century Bill Haywood, a leader
of the IWW (Industrial Workers of the World
... the press called them "Wobblies") was put in
jail for having some labor slogan printed
on our flag; flag desecration, he was con-
victed of. Please discontinue this practice.

I remember the rt-wing nut cases that
wanted to tinker with our Constitution to ban
flag desecration were draping flags outside
their offices - touching walls - against flag
etiquette.
