

Program manager: JAN. 13, 99

I am writing to
Commend CSPAN 2
for its increasingly
excellent programming.
I find this station
to be in a league of
its own, the programs
you are offering continue
to improve in excellence
and interest. There is
no where else in the
media of television
where this quality of
programming is available.
This is a public service
which is critical. It must
continue.
