Dear Mr. Lamb:

You wondered where the calls about 'Waco' were coming from?

I am 63, a non-church going, college educated parent of four and grandmother of five.... and I absolutely hate a

government...especially Reno...that has any part in buring up innocent children...and no matter who says what; we all know the children were alive until the government came calling with their tanks.

Further, at least five of my old friends have repeatedly similar thoughts.

Hume is right; the trial of the Davidians will be a newsbuster. When the USA Today headlines read 'They lied'....it was not news to us common sense people...and we often find you in the media hilariously funny.

Sincerely,
