RE: . Social & Political Issues on College Campus

Gentlemen:

We certainly enjoyed the show on C-SPAN this morning from George Washington University. God bless the USA! Freedom is still alive and evident, even on college campuses, which does prove our system of government, no matter how much is currently abusive is still the best on the face of the earth. Listening to CNN and so many other far-out liberal newsmen could incline the citizens of the USA to believe our wonderful form of government has gone down the drain to oblivion. Stay in there!

O. Academia

Sincerely,
