Dear C-SPAN,

Since Xmas nite I've written four thank you's for your holidays' programming; each in some detail. I give up! For brevity's sake I'll only say your choices were superb.

The two hour conversation with Brian Lamber, Karen House, Ronan Lurie, and Randall Robinson was fascinating. A better word is stimulating!

Learned a lot from Congressman Ford (on lobbyists)

Admired your timeliness with Connally, in light of the Stone movie.

Enjoyed Bruce Collins and Liz Carpenter, again. He's good at bringing out the Texan in all of us in his interviews. Naturally I like hearing it told as it was or is!

C-SPAN 2 (on the 27th) aired a discussion on Sumner Taped in '89. Terrific!

Liked the Arlen Specter profile. He'd been off my list since the Thomas hearings. Now, I'm not so sure. Can you do the same thing for Simpson? Be interesting but I don't think he can be redeemed for me!

There are many others. Some I missed while in Houston with medical problems; but all I enjoyed for a first or second time.

Happy New Year,
