This president thinks he was elected as dictator. The big pitch was "George Bush lied to you. He said 'read my lips--no new taxes', but then "he" raised them. "Reagan and Bush caused the deficit."

That is a lie. How is it that the American people don't realize that the Congress is responsible for every penny of the deficit? Why do they condemn a Republican and excuse a Democrat for doing the same thing?

Double standard is too mild a word for it. The right word is hypocrisy!

Clinton promised a lot of things, and too many people swallowed it hook, line, and sinker. Never mind that he ran and hid when his country called. Never mind that he wrote letters saying among other things that he "loathed the military." Never mind breaking the marriage vows.

How have we come to the point that character does not matter? Does anyone think that this man would be hired by anyone based on his background. Could he pass a security clearance check? I don't see how!

We can see how he makes decisions. Hillary tells him what to do!

After the fiasco over his first two selections for Attorney General, he trots out the idea of homosexuals in the military and the idea of opening our borders to people with aids.

This is the only promise he has kept so far, and one has to wonder why he feels such an obligation to the very people who have brought us AIDS.

Don't call them Gay. This ~~is~~ well-known Hitlerian technique of using euphemisms to change a society's thinking from repugnance to acceptance is insulting to those who understand and value the meaning of words.

Don't call them Gay! This is an insult to Lt. George Gay of WWII and to anyone else, born in a different time, named Gaylord or Gayle or similar names. I can assure you that when the book "Our Hearts Were Young And Gay" was written, it didn't conjure up in my young mind someone having ~~mutual orgasm~~ with the same sex.

If we could raise from the dead all those who gave their lives in WWII and Korea, I know they would be horrified and furious at what the liberals have done to their country. We who are still living have had to endure an almost total breakdown of morality. This is the result of a deliberate plan by people who seek to totally control the lives and thoughts of the American people.

It's too bad that 43% of the voters can subject the rest of us to all the goofy things that are sure to happen under the Clinton-Gore administration. I urge the rest of you to join me in letting this President, Vice-President, and Congressmen know what we want them to do.

Paramount is the matter of TRUST. In terms of sacrifice, we should demand a 10% cut of the budget in every government office, a 10% cut in salary for every government worker, and a cut of at least half of the last congressional pay raise.

Take a good look at the congress. Let's get rid of the pompous and arrogant people who only care about us once every election time. Demand that they keep their promises. A promise broken was a lie to begin with.

President Clinton would not be in the White House today if he had told us then what he is telling us now. He accused George Bush of lying--"Read my lips.. No new taxes."

So what is he proposing to do to the middle class? I don't have to tell you. You already know the sad news. He's going to stick it to us again!

We are the ones who make the country work. The so-called poor contribute very little, and the rich don't get dirty and sweat. Nothing ever changes. Politicians (a dirty word) never change, but we allow them and the media (another dirty word) to hypnotize us every time there is an election.

Surely most of us know that it's the Congress who passes the laws, and it's the Congress who appropriates the money. Don't blame Pres. Reagan and Pres. Bush for the deficit. Blame the Democratic Congress. If we ran our lives the way they run our government, we would all be in bankruptcy.

I propose an independent audit of all government offices by an independent citizens group. I know we would find waste and fraud in almost all of them.

Specifics--cut the salary of every government worker, including Congress, the Executive branch, and the Judicial branch. It should be easy to calculate how much money that would save--a tremendous amount, I'm sure!

I urge all of you members of The Silent Majority to send letters to the president, your congressmen or women, and to your newspapers. We're only hearing their version, and I believe that their version is dead wrong.

You don't have to wait until the next election to speak up. Don't wait until this administration has things in such a mess that God himself couldn't straighten them out.

Don't be shy. The purpose of education is to be able to express yourself, so do it now.

Don't forget--a silent majority allowed Adolph Hitler to take over Germany with just a few thousand people in uniform and jackboots. Don't--I implore you--sit on your whatevers and let it happen to the United States of America. Too many brave young men and women have died for you.
