Dear C-SPAN,

I wish you had a pushed a little harder to be able to broadcast the musical portions of the REUNION on THE MORE Lincoln Memorial concert January 17th. Since it was a public event and you always covered music before, I don't understand how HBO pulls such clout. Tax-payer money probably went into it so how could they own it?

Also, I wish you would install an 800 number on your call-in shows so that

poorer and even more middle class people could participate. I can't afford to use long distance phoning often and then have to wait on line. I wonder how much it costs each caller. I see you use an 800 number to order your publications, surely E-SBW could afford one so that all the views of Americans could be expressed and not just the well-off ones.

I appreciate all that you do - I really enjoyed the inauguration coverage in spite of feeling ripped off on the 17th.

— Thanks —
