

Dear Mr. Lamb & associates:

Raise
Programming

I was delighted to read in our press the AP report about trying to get your own cameras into Congress. I hope you will be successful although I have my doubts. Then again you're the experts & certainly know what the "score" is.

C-SPAN 2 is still on the air here & I hope my small efforts helped. Our community is so small that "C-spanners" are few. Also it replaced a Caribbean music video channel. (C-SPAN is here too.)

I ordered the \$350 in C-SPAN tapes & use them as much as possible. Thank you very much. Unfortunately I wasn't assigned to U.S. History this fall so didn't use the Lincoln-Douglas debates, although I thought they were splendid. The segments & comments before & after were also very interesting.

Thank you for your two great channels & for allowing me to participate in the August Seminar for Professors. Meeting your staff & other educators was truly stimulating.

Holiday blessings to you all & best wishes

Christiansted, St. Croix, VI 00822-4172
