

[redacted] I am not a letter writer
and that is why it has taken
me this while to write. However,
I watched Senator Specter on
your program trying to weasel
out of the image he created during that
fiasco over our newly appointed Supreme
Court judge. We and Watch were so vicious,
it went beyond any decent boundaries..
All they needed were hatchets. They reminded
me of contract murder killers. All the men
were innocuous but none so vindictive as
these two. If I were a voter of their states
I'd try everything in my power to see they
were not re-elected.
