Dear C-SPAN folks,

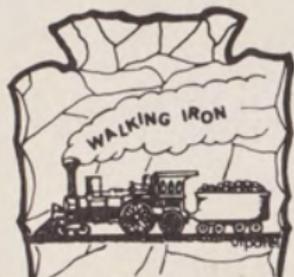

CC: [REDACTED]

Your answer to a viewer's question as to where to find BBC radio on the T.V. dial was incomplete for those of us who own satellite dishes.

I find BBC on galaxy 3, channel 24 vertical, the same as C-SPAN. If I adjust the audio tuner, I get BBC and also C-SPAN schedule update. Also, on galaxy 3, channel 14 vertical, same as C-SPAN II, I can receive C-SPAN II schedule advisory by fine tuning.

Thank you all so much for your great stations. I get smarter every day - we think!

Sincerely, [REDACTED]
