I turned TV on about 15 minutes before the "Lundgren Airmen" portion came on and believe me when I say the two people from the Congressman's office seemed to be disgusted and was ready to get off.

Your Saturday host today, Richard ?? definitely is not the person to serve as host - his voice will drive you crazy. The pro callers were cut off and the anti rolled on and on until they got everything out. As soon as they were off the phone he had an article from some paper to go with it. Anybody would know that planned when the caller gets on the telephone.

As for the airmen the time was wasted as neither caller or guests seem to be able to complete calls or remarks completed by the airmen. It might be more interesting if the format can be changed if you ever have them on again and they should be.

I think I've heard Lamb is CEO and whatever; no commercials, no this, no that, whose paying? Also whose hiring? No minorities, very few, if any, are a part of the C-Span.

How do you survive? For some reason, I look when Lamb is host, would he somehow explain the prejudices? As much TV that I watch, there's always commercials and you hear the remarks "gotta go, gotta be paid," "finish when we return." Can't quite understand why they have to have ads and you don't.

PS As you really think these people want you as PRESIDENT, as so many suggest? What do you have to offer? We all read some newspapers. And believe me when I say your present staff wouldn't be able to follow. Quite a few of us have degrees of all kind and can read. Really your program adds fire to this mess - we all have opinions.
