Dear Brian Lamb;

Vista Ca. 92069
(about 8 yrs now)

I wish I could find the words that could express my thanks to you and your wonderful hard working staff for bringing to me in my home what a convention is like, uninterrupted, gavel to gavel, plus interviews with delegates and call-ins. What a valuable educational tool you are offering me - and many others - free (well almost free) I have learnt so much and have observed our elected officials up close and almost personal. My family wished C-span never existed because I am a C-span addict.

P.S. It was nice to see so many blacks, Asians, women and Hispanics professing my beliefs and political ideology. Thanks again for both conventions
Oah

I was more impressed with Dan Quayle's speech than Pres. Bush's. I would never vote for him for President but he has come a long way and he is vindicated in my eyes.

Keep C-Span unbiased never let it change. 20 years ago I never knew Walter Cronkite's political bent - same for Chit Huntley and David Brinkley (I still don't for David) but see how time has changed. We all know how bias the 4 networks are. Wolves in sheep clothing crept in and corrupted their objectivity. Who cares what THEY think. I just want objective reporting. Brian - you are the grand master, I love
Book notes

Faithfully a fan
