C-SPAN

400 N. Capitol Street

Washington, D.C. 20002

I watch C-SPAN because I like to learn about politics and social problems and things about the world. When I watch C-Span I am pleased by the way you explained the issues, it's terrific.

I think the shows on C-SPAN are great because children can learn about the society.

Children growing up.

Watching your program they will learn about the things in the world.

And become advanced. So I think it will keep the children off the streets. When I was younger, I wanted to become President of the United States but was unsure if I could. After I watched C-SPAN for three weeks I can believe that I now believe that I can become President.

C-SPAN programs are real and happening now. When I watch C-SPAN I feel that someone cares about the world.

Sincerely,
