Dear Mr. Lamb:

Have you thought about presenting 3 men who have lost their voices because of heavy smoking. They must use a heavy metal blade against their throat to produce sounds that can be interpreted as speech. This is neither an attractive sight or a soothing sound.

I feel that if all the school children in the U.S. could see how these men look, feel and talk, it would be a visible effect of what smoking could do to them.

I suggest the use of the C-SPAN Bus to visit all of the schools in the U.S. while the C-SPAN photographer shows reaction of children to these presentations.

I'm certain that there is some

S.W

foundation, possibly the Ford Foun-  
dation willing to cover the cost.  
I hope you are interested.

Sincerely,

(Miss)
