More than 600 applications were judged by C-SPAN in conjunction with each state cable association. The winning schools will be contacted by mail the week of March 30.

"We have found, over the years we've spent developing C-SPAN In The Classroom, that the biggest challenge to overcome is lack of TV equipment in schools and we are committed to getting that equipment out there," said Linda Heller, Director, C-SPAN Educational Services.

Applications for C-SPAN national equipment grant were made available to schools beginning in August of last year through local cable systems, state cable associations and directly from C-SPAN.
