Hi C-Span--

Dear Brian--Listening to your sho this morning - more and more I hear callers reacting to what they think is overly-conservative positions of your guests--

I think those calls, coupled with recent blue-eyed awakenings in the press (Russell Baker/Tom Wicker) re liberties signals that there is too much of a movement to far right -- that our Supreme Court has been behaving in an anti-Democratic way re rights-- Sensing this they are reacting -- Personally, I feel we are in a period of Fascism!

Also I think propoganda puts us all to sleep and the last dose might just be wearing off!

Too--the individual war--Korea/VietNam - and on to Panama/Iraq forces citizens to han together against outsiders--not reflecting upon their status -- The Cold War served this decades lon purpose-- Can Bush & Republicans convince citizens not to look to their own status now that Cold War threats are over?

If they decide to work together for more social benefit for all citizens it will not be thru Conservatism -- but Liberalism--

Good news on covering the Libertarian party!

Meanwhile - should you ever see Bork again--

Ask him if the Supreme Court should find State's rights to keep abortion legal "unconstitutional" and force their overturning!?

Many will soon find they are being exploited in the abortion battle to overturn Roe v Wade -- these efforts are for control of women-- and control of reproduction -- not moral battles --- They equal free labor! The last decision cameclose to saying so -- Government interest in childbearing!

(cheap labor)

Also: What do callers think of the Iran-Contra investigation having only until fall to get prosecutions ready-- five year limit? My opinion is that the Justice Department is hampering efforts - so is White House --- obviously Reagan and Bush were directly involved-- Walsh only has 5 prosecutors left! We should be giving him full cooperation!

Gates obviously is being put in to hide the dead bodies-- naturally he knows where they are buried---

There should be an extension on this time limit--

Congress is working on a crime bill for the wrong criminals --

We need a special crime bill for crimes in Government---

Also : Re the Henry Gonzalez story of Kissinger & Associates getting one in every eight export licenses for shipping arms to Iraq!

So far Skowcroft has told us that he sold his shares in GE arms before the Iraqi war--- but what of Eagleburger?

Also what about Thornburg and his \$34,000+ share in Alyeska? Charges against them were dismissed in the Exxon case!

How about getting Liz Holtzman on -- I'd like to hear the whole story on the Judge Irving Levine who asked a rape victim to re-enact her rape attack for him on the floor of his chamber! And she ended up with the reprimand! (Of course he was also asked to leave the bench over another matter) --

Sorry your NOW coverage did not include her comments--- But--want to comment we have a dangerous situation here with Gloria Steinem suggesting that any other involvement over NOW be enacted!!! Think of the labor Unions--Think of the Black movement-- And think of Gloria Steinem having been accused of being linked to the CIA!!!

Additionally--she was not supposed to be further involved with MS mag---yet she mentioned working to keep it going!

So C-Span--what do you hear????
