When are you going to drop the segregated phone lines? Brian has turned out to be a bit of a liar - I remember hearing him say over & over before the election that phones would go back to normal once the election was over - So why is it still here?

By the way the man you have on - on the weekends is terrible - He has ignored Mr. Sylard and that Uelau housing gal has blabbed on & on - He's not improved over the months he's been on
