Enclosed are some clippings from the local papers.

I do like watching your program on C Span.

Everyone I have talked to say the President did do something wrong. The polls are going to show him a high percentage as the most of the people care only about making a living<sup>g</sup>. The people in this country are slow to wake up but they will.

They got rid of a good friend of mine Wayne Hayes.

I understand the Welfare Program President Clinton put thru was a republican program when Richard Nixon was in office.

What does Senator Byrd expect the history books to write about him.?

What do you think these other countries think about this mess?

These history professors should stay off T V and write the history instead of making it with their personel ideas.

We shall see what party wins. How about the silent majority. I know a lot of good Democrats.

*O impeach*

PAGE TWO

Some of the people seem to think one person, the President, is responsible for the jobs and good fortune they seem to be having.

We have lost a lot of good paying jobs and the only thing the President is doing about it is nothing, well maybe lip service.

The surplus money came about because they increased the minimum wage and then all the Unions went out for a raise and you will find half the increase went to the government. You want a bigger surplus raise the wages!!!

Why with all these people repeating the same thing, we can not get someone to address the real issue of social security. One person working at minimum wage when he retire will receive how much? Does anyone want to ask the question?

I bet nobody stands up and be counted in this one.

I DO VOTE AND I HAVE A LOT OF VERY GOOD REPUBLICANS AS PEOPLE I CAN CALL MY FRIENDS AS THEY KNOW ME AND CAN CALL ME BY NAME WHEN THEY SEE ME.

I BET YOU DON'T PUT THIS ON YOUR PROGRAM.

Thank you
